TENICOR

VELO5

APPENDIX INSIDE-THE-WAISTBAND HOLSTER

FEATURES

The **VELO5** is designed specifically for appendix carry to ensure effortless concealment and lasting comfort, reducing the gun's profile to make your gun disappear.

ADJUSTABILITY: Equipped with DCC MOD4 Universal Clips for a strong, low-profile attachment. VELO5 offers just under an inch of ride height adjustment, increased cant range, and three clip mounting positions for dialed-in concealment and stability.

BODY CONTOUR: Formed with organic curves to fill the natural voids between your body and the gun, the VELO5 offers unmatched concealment and comfort. An open-bottom design accommodates various slide lengths, threaded barrels, and muzzle devices.

CAMMING BARS: Includes three camming bar sizes and two height positions, letting you fine-tune concealment by rotating the holster into your body.

INTEGRATED PERFORMANCE: A precisely profiled trigger guard and sweat guard support a full, high-thumb grip while eliminating sight bite and interference during the draw.

RED DOT READY: Compatible with most slide-mounted optics appropriate for the firearm.
